

# Mit Digitalisierung zur **Klimazielerreichung** ohne Greenwashing.

Wie könnten Unternehmen die kommende Reportingpflicht als Chance nutzen?

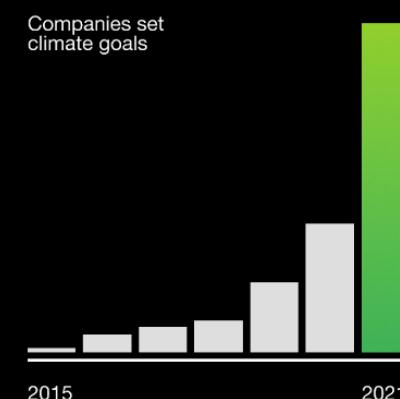

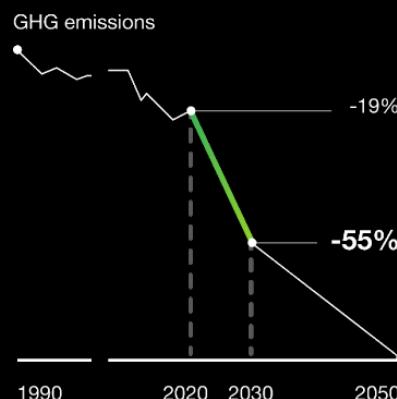

Warum jetzt

## Nachhaltigkeit wird unabdingbar für erfolgreiche Unternehmen.

Treiber:

Regulatorik

Transparenz

Wettbewerb

Kundendruck

# Warum es uns alle angeht?

Noch können wir handeln

## Wetter-Katastrophen

## Aussterbende Spezien

## Konflikte um Ressourcen

## Über 500 Millionen Flüchtlinge

## Hunger-nöte

# You can't manage what you can't measure.

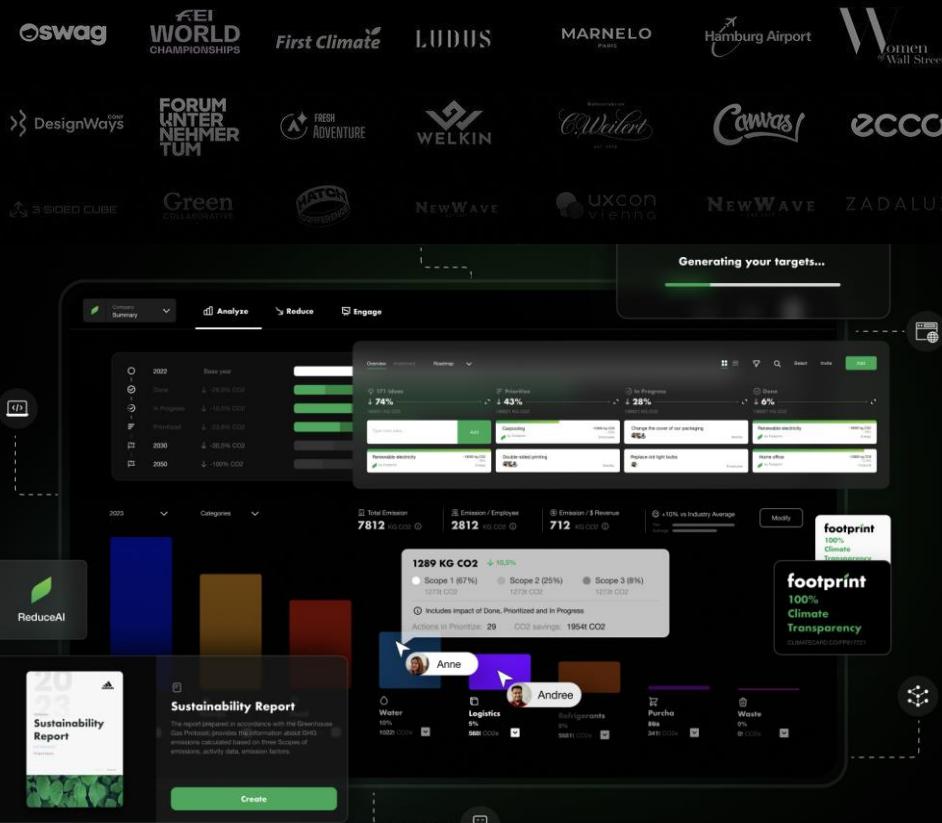

Peter Drucker

**footprint** intelligence

## Footprint Intelligence

The screenshot displays the Footprint Intelligence platform's user interface. At the top, there are logos for various partners: Oswag, FEI WORLD CHAMPIONSHIPS, First Climate, LUDUS, MARNELO PARIS, Hamburg Airport, Women of Wall Street, DesignWays, FORUM UNTERNEHMER TUM, FRESH ADVENTURE, WELKIN, C.Wilbert, Canicas, ECCO, Green COLLABORATIVE, HATCH INNOVATION, NEWWAVE VIENNA, and ZADALUX. Below the partners, a large central dashboard shows a progress bar for generating targets, current emissions data (Total Emission: 7812 kg CO2), and a sustainability report card. The report card includes a 'footprint' logo, '100% Climate Transparency', and 'CLIMATECARD APPROVED'. On the left, there are cards for 'ReduceAI' and a 'Sustainability Report'. The bottom of the interface features several logos: GERMAN ACCELERATOR, Master Accelerator, DIGITAL HUB MOBILITY, eit Urban Mobility, Co-funded by the European Union, and UNTERNEHMER TUM.

CO2-Berechnung, Einsparung, Reporting

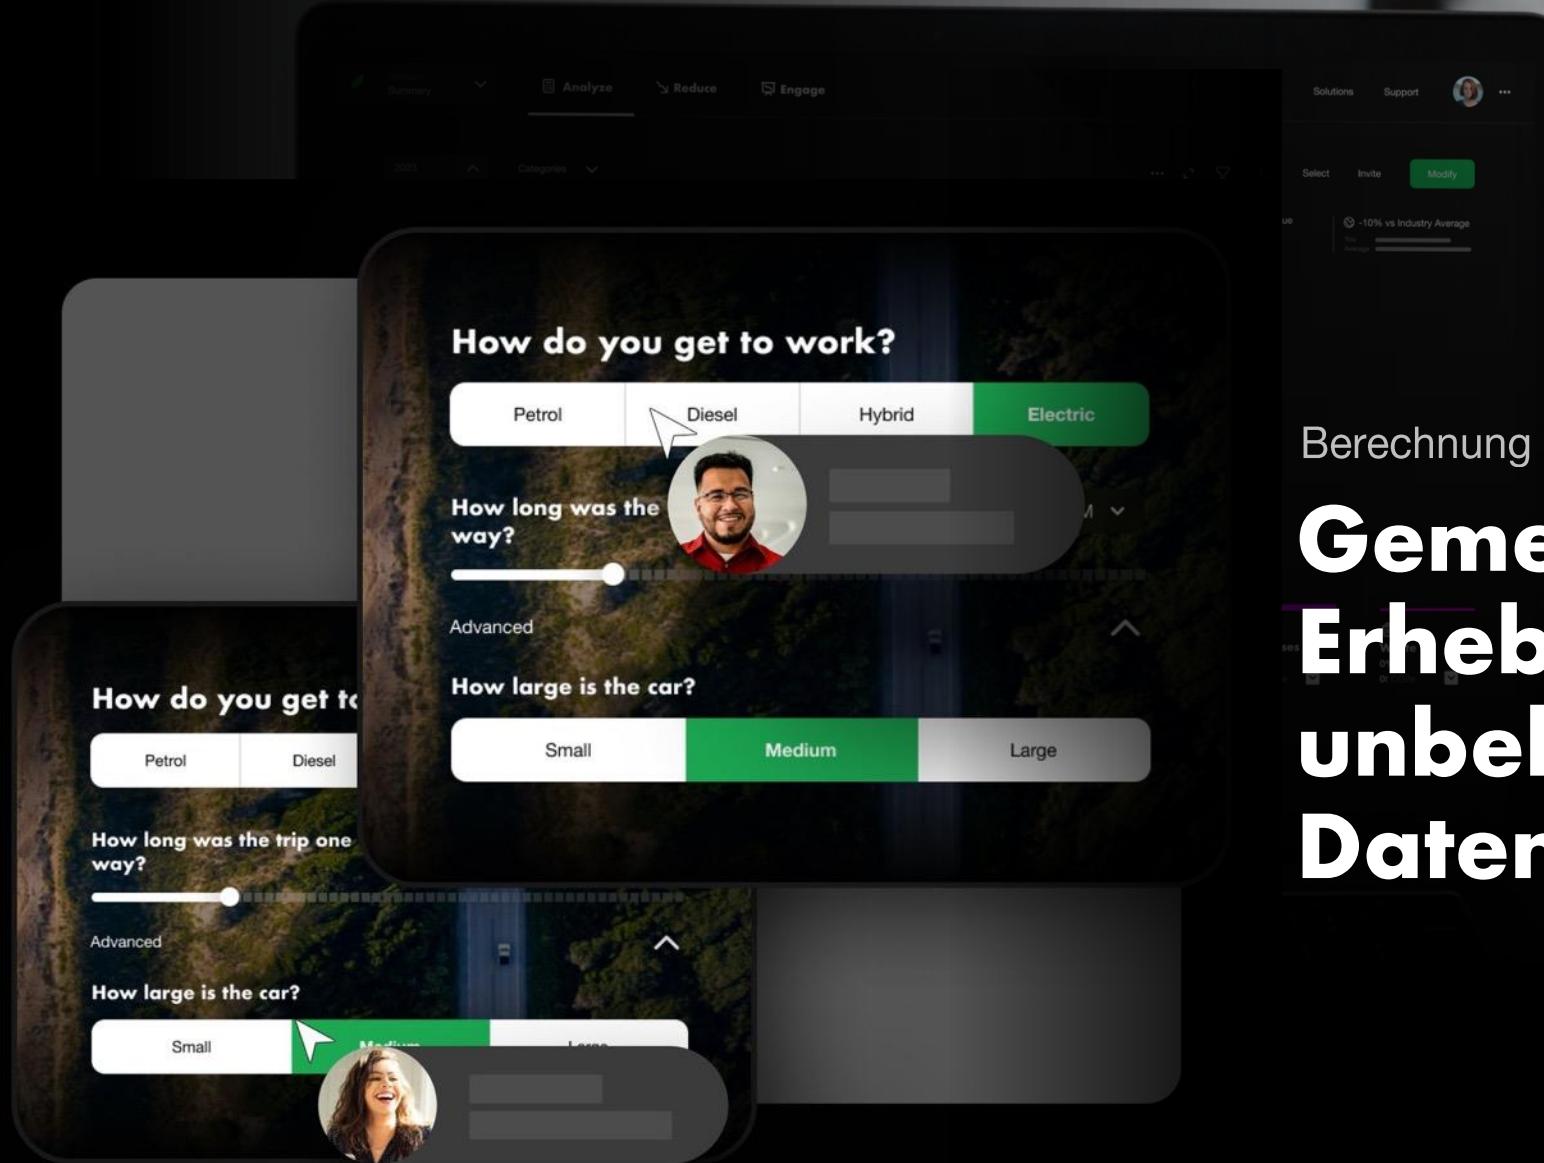

# Die digitale Klimaplattform für echten Fortschritt.

- ✓ CO2-Emissionsberechnung des Firmenfootprints (Scope 1-3).
- ✓ Reporting nach offiziellen Standards und neusten Regulierung.
- ✓ Wissenschaftliche Entwicklung von Klimazielen.
- ✓ Maßgeschneiderte & effektive Dekarbonisierung.
- ✓ Tracking der Implementierung und quantifizierte Einsparungen.

Berechnung

**KI basierte  
Datenintegration &  
CO2 Berechnung.**

Berechnung

**Gemeinsame  
Erhebung  
unbekannter  
Daten.**

The screenshot shows the footprint intelligence software interface. At the top, there are logos for IPCC, eia, FAO, IEA, OECD, and WORLD BANK GROUP. Below this is a navigation bar with tabs for 'Summary', 'Analyze', 'Reduce', and 'Engage'. The main area is titled 'Emissions' and displays a bar chart of emissions sources: Mobility (blue), Energy (orange), Food (red), Water (light blue), Logistics (purple), Refrigerants (yellow), Purchases (grey), and Waste (dark grey). Below the chart, it says 'Total Emission 7661t CO<sub>2</sub>e' and 'Equals ≈ 8761 Long Range Flights ≈ 2121 KM Petrol Car Drive'. On the left, there's a sidebar with 'footprint' logo, user profile (Sabine Belison Karon GmbH), 'Know' (Emissions, Input List), 'Reduce' (Overview, Roadmap, Ranking, Offset), and 'Share' (Coming Soon). A central modal window titled 'Ask a colleague' contains the text 'Collaboration make things easier', an email input field with 'peter@kaufhofmango.co', a message body 'Hey Peter, can you add the energy data? Appriciate it!', and a 'Send' button. A cursor is hovering over the recipient's profile picture.

Kollaboration

**Effiziente  
Zusammenarbeit  
durch  
Digitalisierung.**

The image displays two screenshots of the footprint intelligence mobile application. The top screenshot shows a dashboard with a dark theme. It features user profiles for 'Alex Peters' and 'Anne Fels'. Below the profiles are several performance metrics: 'Total Emission' (7812 kg CO<sub>2</sub>), 'Emission / Employee' (2812 kg CO<sub>2</sub>), 'Emission / \$ Revenue' (712 kg CO<sub>2</sub>), and a comparison to 'Industry Average' (-10% vs Industry Average). The bottom screenshot shows a 'Reduce' section. A central card asks, 'How can we reduce our packaging design?'. Below it is a note: 'Dear Team please add ideas in what ways we could reduce emissions of the packaging design.' To the right is a form for adding ideas, with fields for 'Title' and 'Notes', and a green 'Add' button at the bottom.

## Templates

Create communication resources to engage your customers, followers, employees and investors.

### Sustainability Report

The report prepared in accordance with the Greenhouse Gas Protocol, provides the information about GHG emissions calculated based on three Scopes of emissions, activity data, emission factors.

Create

### Sustainability Page

The customizable Sustainability Landing Page, which includes the information about company's sustainability activity. The link to the sustainability page may be put into your company's official website to communicate your impact in the best way.

Create

### Widgets

Widgets of the most important statistics about your emissions and sustainability impact. Available for download in Embed Code, PDF.

Create

### Website Badge

The customizable badge available in both Light and Dark Modes. Can be downloaded and put into the website to share your Footprint impact with everyone!

Create

Automatisiertes Reporting.

**Begeistern  
durch Stärken.**
